

Instant 

Law firm keeps the focus on clients with simple, secure Wi-Fi

Dharmendra Jain, LL.B., a legal advocate in Madhya Pradesh, relies on HPE Networking Instant On for simple, secure office networking.

As a high court advocate, Dharmendra Jain, LL.B. uses his skills and experience to help clients navigate the complexities of their cases and represent their interests in court. He may handle civil litigation, such as breach of contract, property disputes, or family law matters.

Technology helps Jain provide a better client experience, with greater efficiency and effectiveness. He needs an office network that just works—one that is simple, secure, and affordable—without creating any technology hassles or requiring technical expertise to set up.

4DCompass InfoSolutions, Jan's trusted ICT advisor, recommended HPE Networking Instant On for simple, smart networking.

Fast, simple, secure Wi-Fi for law office

With the HPE Networking Instant On solution, Jain can connect his laptop, phone, or other mobile devices to the Wi-Fi. He can access legal research, practice management, billing, productivity, and other applications. He can count on reliable connectivity for phone or video calls with clients and legal associates. Clients can connect their own mobile devices over a separate and secure guest Wi-Fi when in Jain's office.

Industry: Legal
Country: India

Objective

Fast, simple, secure Wi-Fi for law office

Approach

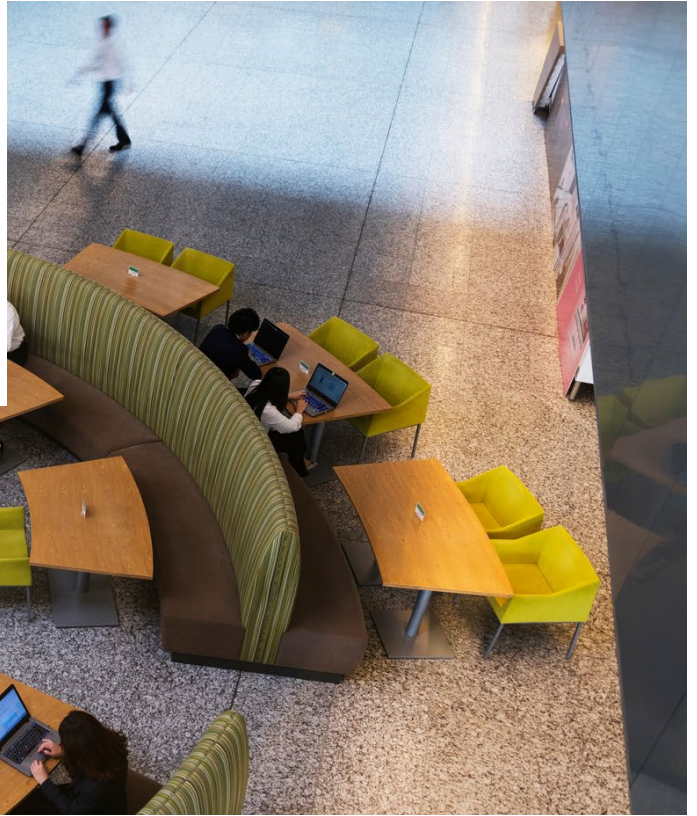

Chose Instant On for simple, smart business-grade Wi-Fi network

Outcomes

- Fast, reliable Wi-Fi to support legal work
- Automatically protected by the latest security
- Easy to set up and manage

With fast, reliable Wi-Fi from HPE Networking Instant On Solution, Dharmendra Jain can focus on representing his clients' legal matters.”

Wi-Fi that works hard for you

Jain uses HPE Networking Instant On Access Point AP11, which can connect up to 50 Wi-Fi devices. Instant On provides simple, but strong security, with multifactor authentication and encryption to keep client communications private.

Setting up and managing the network is easy with the Instant On mobile app or web browser, including setting up security and guest access.

Instant On Access Points come with a 24-month warranty and free software upgrades as long as Jain owns them, so his network remains future-ready.
