URSA Workspaces offers an elevated coworking environment with great network

Fast, reliable HPE Networking Instant On solutions help URSA Workspaces deliver exceptional digital experiences

URSA Workspaces is a premier coworking provider in Ahmedabad, India, where professionals can gather in shared, high-tech environments for productivity, community, and creativity. URSA Workspaces offers open workstations, dedicated desks, meeting rooms, and private cabins, as well as a tranquil green “oasis” room filled with books and plants, a lively, bright recreation space with game tables and cozy couches, and a café for a quick bite to eat.

Fast network for a busy coworking space

URSA Workspaces relies on HPE Networking Instant On for highly responsive, reliable wireless and wired connectivity for its customers and employees. With Wi-Fi 6 throughout the vibrant workspace, there’s plenty of bandwidth, whether people are head-down with work or collaborating with others.

URSA Workspaces can be assured that application traffic from its own business operations remains separate and private from its customers’ application traffic, too. It’s a smart workspace too, with automated controls for lighting, temperature, and door locks.

ChipConnect Solutions, a leading IT solution provider in Ahmedabad, recommended Instant On for wired and wireless networking that’s designed to

**Hewlett Packard
Enterprise**

Industry: Business Services
Country: India

Objective

Offer fast, reliable, and secure network as a coworking amenity

Approach

Chose Instant On for simple, smart business-grade wireless and wired networking to support 170+ hot desks, multiple conference spaces, and common areas

Outcomes

- Provide fast Wi-Fi 6 for exceptional coworking experience
- Separate customer and employee traffic for greater security
- Easy to set up and manage

With fast, reliable HPE Networking Instant On solutions, URSA Workspaces can help people ignite innovation, unlock creativity, and build community.”

Simple to set up and expand

URSA Workspaces uses HPE Networking Instant On AP22 access points for lightning-fast Wi-Fi 6 and a superior user experience. A single Instant On AP22 can connect 75+ Wi-Fi devices, which makes it ideal for the busy coworking space, whether connecting customers' devices or the company's own computers and sensors. Instant On Smart Mesh technology eliminates Wi-Fi dead zones and makes it easy to ensure great coverage across the workspace.

URSA Workspaces uses the HPE Networking Instant On 1930 switch, a smart-managed Layer 2+ 1G/10G switch to power business operations. The Instant On 1930 switch has dedicated SPF+ fiber ports and plenty of Power over Ethernet (PoE) to connect wireless access points, whiteboards, printers, security cameras, and other wired devices. Instant On 1830, a Layer 2 smart-managed switch that provides 1G connectivity is used where quiet, fanless operation is needed.

Setting up and managing the network was quick and easy with the Instant On

stop bandwidth hogs from slowing everyone down, and pre-emptively blocking access to inappropriate content and malicious sites for a digitally safe work environment.

Instant On access points come with a 24-month warranty and free software upgrades so URSA Workspaces' network remains ready for the future.
