Small businesses are facing a number of challenges that need constant attention, so setting up and running a network shouldn’t be on that list. Choosing the best Wi-Fi for your business should make your life simple.

We’ve made it easy to keep Wi-Fi users happy, mobile devices connected and your network secure. Setting up employee and guest networks is a breeze. Smart Mesh Wi-Fi makes it easy to cover every room without wires. And bandwidth hogs and unknown devices on your network are a thing of the past.

Whether you own a small retail store or a busy bed and breakfast, Wi-Fi plays such a critical role today. Aruba Instant On Access Points (APs) are easy to deploy and manage – at an attractive price point. Everything from mounting hardware to easy-to-use web and mobile app management tools, and business-grade software features are included – no extra charge or need for external controllers.

**KEY FEATURES**

- Fast 802.11ac Wave 2, 3X3:3 MU-MIMO performance
- Smart Mesh Wi-Fi support
- Built in Wi-Fi router/gateway functionality
- Content and device blocking controls
- Simple to use bandwidth tuning for power-users
- Easy-to-use web and mobile app for setup and management
- Secure Guest Wi-Fi with simple setup
- Application classification, control and visibility
- PPPoE and static IP

**HIGHLIGHTS**

- **Simplicity at its best**
  - Wi-Fi that works right out of the box
  - Performance that keeps your users happy

- **Security you can count on**
  - Simple features that keep business and guest traffic separate
  - Future-ready WPA2/WPA3 authentication for secure Wi-Fi access

- **We’ve got you covered**
  - No extra licensing fees
  - Industry leading warranty and support
BUILT-IN SECURITY GATEWAY/FIREWALL
When it comes to stopping people and bots from accessing your network from the outside it’s critical for small businesses. We’ve added advanced features that do not require external gateways and the complexity that comes with them. In case of gateway failure, you can quickly and easily swap it out with another AP with a single click.

APP VISIBILITY AND CONTROL
Get full visibility into the apps running on your network along with the ability to block certain applications from being used. You also get the flexibility to turn off this feature from the mobile app as well.

EASY GUEST ACCESS
Customize the experience with your logo, authentication, rules of use or keep it simple. Applying bandwidth rates, setting data usage per app and limiting duration of use is also a breeze. Or use an external portal or service like Facebook Wi-Fi. You can also have open guest networks for quick and easy access.

ENTERPRISE GRADE Wi-Fi
Keep users happy as they move between spaces or meetings with a seamless handoff between APs. All you need is to use is secure WPA2 or WPA3 authentication on your secure networks and we do the rest. You can also control the network width, channels and channel width to suit your specific environment in a single click.

MULTI-SITE MANAGEMENT
The cloud-hosted web interface and mobile app make it easy to manage multiple sites: multiple networks, distributed deployments and multi-tenancy deployments. Each site is logically separated and has its own configuration, statistics, guest portal, and admin read/write and read-only privileges.

PPPoE AND STATIC IP
Every customer has different environment. They might want to authenticate with the ISP’s PPPoE server and provide static IP to the APs.

SMART MESH
Each of the Aruba Instant On APs support extending coverage to those hard to reach spaces where Ethernet cabling may not exist. The Aruba Instant On mobile app makes it easy to have a Mesh network up in minutes – indoor or out.

5 STAR VOICE AND VIDEO QUALITY
Wi-Fi Alliance Certified Instant On APs automatically detect and prioritize applications such as Skype, FaceTime and WeChat that use SIP, SCCP and other popular protocols. Now it’s even easier to use softphones and the mobile apps that keep your users connected.
IN THE BOX
- Aruba Instant On AP12 Indoor Access Point
- Aruba Instant On AP12 Quick Start guide
- Ceiling rail mount clip
- Solid surface mount clip
- Ethernet Cable

RADIOs
- Dual Radio for simultaneous dual-band operation
  5 GHz 802.11ac 3x3 MIMO for up to 1,300 Mbps wireless data rate, with Multi User MIMO support (Wi-Fi 5)
  2.4 GHz 802.11n 2x2 MIMO for up to 300 Mbps wireless data rate (Wi-Fi 4)

INTERFACES
- Uplink Gigabit Ethernet port, with POE-in support (802.3af)
- DC power connector (12V)
- USB host interface (future use)
- Bluetooth Low Energy (BLE) radio
- LED status indicators (2)
- Reset/LED control button
- Kensington security slot

PHYSICAL SPECIFICATIONS
- 167mm x 167mm x 34mm, excluding mount accessories
- Weight: 483g

POWER
- Power over Ethernet (POE): 802.3af (class 3)
- Max power consumption (worst-case): 13.0W (PoE), 12.0W (DC)
- DC power (12V)
- Note: Power sources are sold separately

ANTENNAS
- Integrated downtilt omni-directional antennas with maximum individual antenna gain of 3.9dBi in 2.4GHz and 5.4dBi in 5GHz

MOUNTING
- The access point ships with a (black) mount clip to attach to suspended ceiling rails, and a (white) mount clip to attach to solid surfaces (wall/ceiling)

ENVIRONMENTAL & RELIABILITY
- Operating Temperature: 0° C to +50° C (+32° F to +122° F)
- MTBF: 1,116khrs (127yrs) at +25° C

INDUSTRY CERTIFICATIONS
- UL 2043 plenum rating
- EN 60601-1-1 and EN 60601-1-2 (for deployment in medical environments)
- Wi-Fi Alliance certified (WFA) 802.11ac with Wave 2 (Wi-Fi 5), WPA2, WPA3

MANAGEMENT OPTIONS
- Instant On mobile application (Android & iOS)
- Cloud Portal: Portal.ArubaInstantOn.com

WARRANTY & SUPPORT
- Aruba Instant On 1 Year warranty with 24X7 phone support for first 90 days and chat support for the entire warranty period. Community support as long as you own the products
