Aruba Instant On for Small Business
Wi-Fi for a competitive edge
Small businesses come in all shapes and sizes, ranging from boutique clothing stores and hotels to gourmet cafes and tech start-ups.

But there’s one thing in common. Fast and reliable Wi-Fi can help experiences go from boring to amazing. Crystal clear voice on a conference call, or easily sharing pictures on their latest purchase, can make all the difference for employees and customers.

From the operations side of things, mobility and apps that always work keep your employees engaged and performing at their best. And when your customers and employees are happy, it lets you focus on what matters most – building the business.
Say hello to Aruba Instant On Access Points

From blazing to amazing!
The Aruba Instant On portfolio delivers high-performance, secure Wi-Fi access at an attractive price that won’t break the bank.

With models designed for indoor, outdoor, and hospitality or SOHO environments there’s an option that meets any need.

17 YEARS OF PROVEN INNOVATION
From enterprise to SMB. New Aruba Instant On Access Points carry on the legacy
Meet the Mobile App

Getting a network up and running, managing and monitoring it has never been this easy. With Instant On all it takes is an iOS or Android enabled smart device and you’re ready to go. Setting up your network is as easy as 1, 2, 3.
The in-store experience

For retailers, network connectivity, security and linking to the Internet are critical operating requirements. Point of Sale (PoS) systems, payroll, inventory control, guest access, and other services are what keeps the business growing. The in-store wireless network is vital to staff and shoppers alike – until it stops working.

The Aruba Instant On AP11 is perfect for the small boutique, real estate office or a promising dental practice. You get a cost-effective and simple to manage Wi-Fi solution that’s built to support the mobile, IoT and security demands of today’s busy commercial environment.
Whether your run a small B&B or the hottest boutique hotel in town, we understand the guest experience drives your need for fast, secure, and customizable wireless access. And all it takes is a slow network connection or poor Wi-Fi coverage to knock a review from five to four stars or worse.

The Aruba Instant On AP11D, AP12 and AP17 are great for spaces that require seamless indoor and outdoor access and coverage that provides a smooth in-room Wi-Fi experience. You get a cost-effective Wi-Fi solution that’s built to keep your staff and guests happy. And better yet, simple software tuning ensures Netflix and security cameras, key systems or other operational systems all get along.
It’s your office, it has to work

When starting out, you’re faced with thousands of decisions that are all competing for your time. Luckily, you've laid the groundwork for success. High performance laptops, interactive voice and video collaboration tools and a wireless network that can handle all of today's latest wireless Internet of Things – Apple TV’s for displays, wireless printers and more.

The Aruba Instant On AP15 fits the bill. It's built for high density workplaces where mobile is preferred and the increasing number of endpoints, cloud apps, and higher volumes of data must be able to deliver the performance that keeps your employees and devices working at their best. All with the necessary security features that keeps their data safe, regardless of their roles.
With Aruba Instant On, you’re getting a combination of world-class performance, network security and simple setup and management software to meet any small business’ need. You’re also acquiring premium hardware and software that’s scalable, cost-effective and supports the growth of emerging apps and IoT, while delivering the best user and IT experience possible.

Why Aruba Instant On

To remain competitive in today’s digital world, small businesses are deploying innovative solutions just like the big guys that create value, reduce costs, mitigate risks, and build customer confidence. Your wireless network should be your least of your worries.
